

# PANEL DEBATE

CULTURE, TRADITION AND SUSTAINABILITY.  
A LOOK INTO THE PAST, PRESENT AND FUTURE OF THE  
FAL OYSTER FISHERY

SATURDAY 11 OCTOBER 3PM - 4PM, THE THEATRE

Join Elliot Kett from Kelp Canteen and guests for a wide-ranging discussion on the Fal oyster fishery, its history, traditions and importance both locally and internationally. It is the only native oyster fishery in Europe to still harvest through non-motorised boats, either by sail or oar, and is one of the only commercially viable native oyster fisheries left in the UK. On the panel you'll hear from some of the fishers whose families have fished the Fal for generations, from wholesalers who are selling locally and abroad, and from academics who study the ecology and sustainability of native oysters.

THIS EVENT IS FREE TO ATTEND
